**Ten principles of Economics** (Mankiw, Gregory N., 2012, *Essentials of Economics*, 6th Edition, South Western Cengage Learning):

- (1) People face **Trade-offs**
- (2) The **Cost** of Something is What you give up to get it
- (3) Rational people think at the **Margin**
- (4) People respond to **Incentives**
- (5) **Trade** can make Everyone Better off
- (6) **Markets** are usually a good way to organize Economic activity
- (7) **Government** can sometimes improve Market outcome
- (8) A Country's **Standard of living** depends on its ability to produce Goods and Services
- (9) **Prices** rise when the Government prints too much **Money**
- (10) Society faces a Short-run Trade-off between **Inflation** and **Unemployment**

You are asked to choose a number,  $a$ , from the following:

$a \in \{3, 9, 2, 4, 1, 0, 5\}$

If you choose #3, you obtain \$3;

If you choose #5, you obtain \$5, and so forth.
